SPEAKERS

Larry Osborne is a Senior Pastor at North Coast Church in Vista, California and president of the North Coast Training Network. Under his leadership, North Coast has grown from 128 to over 7,000 in weekend attendance. It's also been honored as one of the ten most influential churches in America for its pioneering efforts in the multi-site movement, sermon-based small groups, and its creative approach to shared leadership. Larry's books include *Sticky Teams*, *Sticky Church*, *Ten Dumb Things Smart Christians Believe*, *Spirituality For The Rest Of Us*, and *The Unity Factor*.

OSBORNE

Jim Tomberlin is founder and senior strategist of Multi-Site Solutions, a company dedicated to assisting churches in going multi-site. Over three decades of diverse ministry, Jim has pastored a church in Germany, grown a megachurch in Colorado Springs, Colorado and pioneered the multisite strategy for Willow Creek Community Church in Chicago. Through his company, Multi-Site Solutions, he now assists churches of all sizes in defining and fulfilling their ministry vision. His seasoned team of multi-site pioneers and practitioner specialists help churches develop and implement a customized multi-site strategy.

Please call 719-266-2888

Alumni & Group 5+ registrants should contact us to obtain a link to the discount form.

BREAKOUT TRACKS

Breakout topics will fall under the following categories:

CONNECTING

In this digital age, there are many ways to connect with people, but are you taking advantage of the tools available to your church to form real connections between your staff and congregation, among the members of your congregation, and between your church and community? Breakout session topics in this track will include information on outreach to your community, in-reach to your congregation, follow up with visitors and more.

SOCIAL MEDIA

Email, texting, Twitter, Facebook, LinkedIn and even snail mail...Social networking and media tools today are as varied as the people who use them. With computers now in all but 15% of US homes, learning to navigate and successfully harness the power of these tools is imperative. In this track, learn how to communicate effectively with your congregation and community through the use of social media. Options will include topics such as web site design, online vs offline communities, effective email campaigns and more.

MULTI-SITE

From less than 10 multi-site churches in 1990 to over 1500 multi-site churches in 2004, the multi-site movement is growing in its influence and popularity. Whether you are considering going multi-site, already have multiple locations or are just interested in the discussion, this track will cover a myriad of topics related to this issue.

CHURCH SYSTEMS

The Oxford English Dictionary defines a system as "a set of things working together as a mechanism or interconnecting network." Romans 12:4-5 says, "Just as each of us has one body with many members, and these members do not all have the same function, so in Christ we who are many form one body, and each member belongs to all the others." Have you examined the relationship between the systems implemented at your church? Topics in this track will include information on the various systems required in a church such as volunteer management, worship service planning, stewardship and more.

CCB USER

People, Groups, Needs, Processes, Online Forms, API...What does this all mean and how can CCB help your church meet its ministry objectives for your year? Topics in this track will help you to understand the CCB solution and give you tips for making the most of your solution. CCB features covered will include People Management, Groups, Processes and more.

CHURCH IT RoundTable

9 AM - 4 PM
September 10, 2010
Church For All Nations

citr.pbworks.com

The Church IT RoundTable (CITRT) is an informal organization of Church and ministry IT people not only across the US, but around the globe. Very much like NACBA, MinistryCOM, and other organizations that involve church administration and church technology, there has been a growing interest among Church IT people to find ways to connect with each other. And thus the Church IT RoundTable was born in Fall of 2006. Over 300 church staff and volunteers have been involved with CITRT in one way or another and we look forward to watching how God continues to expand our community.

breakout SESSION CONTENT:

1 Since this conference is an opportunity for churches and individuals to better acclimate themselves to the benefits of CCB integration, each breakout session should have a common theme: "How does what we do add value to someone who uses CCB."

2 The content of each breakout session should be approved by July 1, 2010.
